Speaker: Bill Cipparone UR PC Help

Bill went through the steps to set up your PRGL webpage. The process is quite easy following the built-in steps. Only about half of the PRGL members have set up their pages. If you have any trouble, Bill is happy to set it up for you. Bill is from Chicago and was an alter boy. He was recruited right out of college and joined the 525th ASA Military Intelligence- working with the devices for bugging, jamming and optics (spy cameras) against the enemy. After that he sold cellular and DNA research equipment. He has always enjoyed computers and the technology. Today he's a semi-retired grandfather who enjoys fixing computers and building websites.

Respectfully submitted by
Mark Bohach, Secretary of PRGL
